INTRODUCTION	Data analyst with EHSS and Cybersecurity domain experience in dashboard development, data integration and analytics.Currently focusing on analytics to support reporting and performance tracking in compliance of ISO14001 and ISO45001.
--------------	---

WORKING EXPERIENCES	Data Analyst - Global EHSS (1-year Contract) Micron Technology - Analyzed EHSS data to identify trends, risks and improvement opportunities across multiple sites - Supported data-driven EHSS initiatives by improving data visibility, reporting accuracy and decision making capabilities. - Enhanced KPI reporting by developing automated calculations and trend analysis models. - Delivered key analytics solutions including BSA Dashboard for safety tracking and reporting, Sustainability KPI Dashboard for monitoring environment and performance metrics and Survey Analytics Dashboard. - Troubleshoot issues related to API integration, data pipelines and dashboard performance.	Sep 2025 - Present
	Sales Advisor Proton Atiara Johan Group - Managed the full sales cycle from initial inquiry to final sale, including test drives, negotiations, trade-in evaluations, and financing options. - Delivered excellent customer service by understanding client needs and providing tailored vehicle recommendations based on budget, lifestyle, and preferences. - Maintained in-depth knowledge of the latest vehicle models, features, specifications, and pricing to effectively assist customers in making informed purchase decisions.	Nov 2024 - Sep 2025
	Self-employed Barista Marie Coffee - Launched and managed daily operations of a small coffee stall business, overseeing end-to-end responsibilities including inventory management, customer service, and financial tracking. - Collected and analyzed daily sales, customer preferences, and inventory data to identify trends, optimize stock levels, and improve profit margins. - Forecasted inventory needs based on historical sales data and seasonal demand, reducing waste and stockouts.	Jun 2024 - Sep 2025
	Data Analyst (GEES- Protege) PETRONAS Digital Sdn. Bhd. Assigned to the Cybersecurity Department under Design, Validation and Assurance team to identify systemic security gaps and support the mitigation of security vulnerabilities in compliance with NIST guidelines.	Apr 2023 - Apr 2024

	- Designed and implemented an interactive Power BI dashboard to aggregate and visualize weekly cybersecurity metrics across PETRONAS subsidiaries, integrating multiple data sources and optimizing DAX queries for performance and scalability. - Engaged with a vendor company to explore data structure and data accessibility design before migrating the data to a new proposed Cyber Security System. - Conducted User Acceptance Testing to verify data accuracy and ensure that the design aligns with the intended user experience, resulting in a seamless and user-friendly interface.	
	Sales Advisor AI-Futtaim Group (Marks & Spencer) - Ensured products shelves are well-arranged and adequately stocked with products. - Ensured products shelves are well-arranged and adequately stocked with products. - Maintained an in-depth knowledge of store products to provide suitable recommendations to customers as needed.	Jan 2022 - Apr 2023
	Research Assistant Intern Malaysian Nuclear Agency - Conducted a project titled "Correlation of Ground Penetrating Radar and Nuclear Density Gauge Data to Determine the Density of Asphalt Pavement". - Published the project paper to IOP Conference Series: Materials Science and Engineering. - Consisted of teamwork, excellent communication and technical skills integration between devices hardware and data analysing software namely Microsoft Excel and RADAN7	Mar 2021 - Aug 2021

EDUCATION	Bachelor of Science (Nuclear Science) Universiti Kebangsaan Malaysia (UKM) CGPA: 3.24	Sep 2027- Aug 2021
------------------	---	--------------------

CERTIFICATION	Google Data Analytics Professional Certificate Coursera	Dec 2024
	Google Cloud Fundamentals: Core Infrastructure Fusionex Academy	Jun 2023
	Google Cloud Big Data & Machine Learning Fundamentals Fusionex Academy	Jun 2023

LEADERSHIP EXPERIENCES	International Nuclear Science, Technology and Engineering Conference 2019 (iNUSTEC 2019) Marketing Executive Committee Established partnerships with several local universities and organizations, including ASME, NESS, and INE, to support the implementation of this programme.	
	10th International Conference on Isotopes 2020 Presenter Delivered a presentation on the research study titled 'Application of Nuclear Security Methodology in the Development of a Physical Protection System'.
